PUBLISHED BY THE  
STATE SUPERINTENDENT OF PUBLIC INSTRUCTION  
RALEIGH, N. C.

## INTRODUCTORY NOTE

---

Under the provisions of Chapter 136, Public Laws of 1923, the Governor and State Superintendent appointed the following State Committee on High School Text-Books:

Superintendent RAY ARMSTRONG, Goldsboro, N. C.

Principal KATE FINLEY, Rockingham, N. C.

DR. LEON R. MEADOWS, Greenville, N. C.

Superintendent CLYDE A. ERWIN, Rutherfordton, N. C.

Principal J. WATSON MOORE, Winston-Salem, N. C.

This committee, after very careful consideration, filed its report on November 24, 1928, which was ratified by the State Board of Education on January 4, 1929, and thereby becomes the official list from which county committees will make their selections. I hope the county committees will make a thorough investigation of the books submitted and provide for the counties a list of books by which the counties will be willing to stand throughout the period of adoption.

The State Committee has recommended certain literature classics published in a series which can be used to advantage by many high schools. These several series of classics, listed without prices, or any separate standard edition, may be secured from the publishers of such classics.

In compliance with the law, which is printed elsewhere in this bulletin, the several county committees are supposed to select from this list all textbooks to be used in the high schools. I hope that the county committees will give special attention to the adoption and secure a list of books the use of which they can and will conscientiously enforce.

The contract with the publishers held by the State Board of Education requires the publishers to furnish the books to county boards of education at given wholesale prices f. o. b. publisher. The county boards of education should either handle the books direct or arrange with some responsible dealer to handle them at a retail price not exceeding fifteen per cent commission on the wholesale price.

*A. T. Allen*

*State Superintendent of Public Instruction.*

## HIGH SCHOOL TEXT-BOOK LAW

(Art. 31, Chapter 136, Public Laws of 1923.)

SEC. 333. *County boards of education adopt.* The county board of education is hereby authorized to adopt text-books for use in the high schools of the county as hereinafter provided.

SEC. 334. *State committee on high school text-books; duties; reports to State Superintendent.* The Governor and the State Superintendent of Public Instruction shall appoint a State committee on high school text-books, consisting of five members, who shall serve without pay except reimbursement out of the State Treasury upon the requisition of the State Superintendent of Public Instruction for actual expenses incurred by attendance upon meetings of the committee that may be called by, or under the direction of, the State Superintendent of Public Instruction; it shall be the duty of the State committee on high school text-books to make an examination of each book submitted by any publisher, under the provisions of this article, with a view to determine whether or not the contents, quality, and price of said book are such as to make it suitable and desirable for use in public high schools of this State; and the said State committee on high school text-books shall, every five years, except as herein otherwise provided, submit to the State Superintendent of Public Instruction, on or before the first day of January of each year within which county adoptions are to be made, a report of its findings with recommendations as to the books that shall be placed on the State approved list, which list shall constitute the State adopted list for a period of five years, except as herein otherwise provided.

SEC. 335. *State Board of Education approves the list; State Superintendent approves list.* All books recommended for use in the public high schools of the State by the State committee on high school text-books that meet with the approval of the State Board of Education shall then be placed upon the State list of approved text-books at the prices agreed upon under contract entered into between the State Board of Education and the publishers.

SEC. 336. *County committee to recommend books.* The county board of education of each county shall, upon the recommendation of the county committee on high school text-books, every five years, except as hereinafter provided, adopt a county list which shall be made up from the State list of approved books provided for in the preceding section; and the said committee to select high school text-books for each county shall be composed of the county superintendent of public instruction, the superintendent of the largest city or union school system of the county, and three high school principals or teachers chosen from the different high schools of the county, to be selected jointly by the two above mentioned county and city superintendents: *Provided*, that in a county where such a committee cannot be secured according to the manner provided above, the State high school inspector shall recommend to the county board of education of said county the high school books to be used in said county, and the county board of education shall adopt the list of books so recommended; and the county adoptions of high school text-books under this article shall be limited to the State list of approved high school text-books to be selected under the direction of the State Board of Education and published as provided in the preceding section: *Provided*, nothing in this article shall be so construed

916827

as to prevent the county committee on high school text-books from recommending the use of, and the county board of education from adopting, more than one book on a subject for use in the different types of high schools that may require books of greater or less difficulty, nor shall any high school be prevented from using necessary supplementary books.

SEC. 337. *Text-books adopted for five years; exceptions.* The county board of education of each county at a regular meeting held between the first day of February and the first day of June preceding the expiration of present contracts, shall act upon the recommendations of the county committee on high school text-books, and shall adopt a list of high school text-books recommended by the said committee, under the provisions of this article, to be used in the county for the next five years; and when such county adoption shall have been made, no basal book or books, except those on the list adopted for use in the public high schools of the county for the next five years period from the time of an adoption, shall be used by any public high school of the county: *Provided*, that in adopting text-books of history and science, the committee may adopt and the State Board of Education may make contracts for a period of two years.

SEC. 338. *State Board of Education to make contracts.* The State Board of Education shall make all needful rules and regulations governing the advertisement for bids, when and how prices shall be submitted, when and how sample books for adoption shall be submitted, the nature of the contract to be entered into between the State Board of Education and the publishers, the nature and kind of bond, if any, is necessary, and all other needful rules and regulations governing the adoption of books for the high schools not otherwise specified in this article. After a contract has been entered into between the State Board of Education and the publisher, if the publisher shall fail to keep its contract as to prices, distribution of books, etc., the Attorney-General shall bring suit against said company, when requested by the State Board of Education, for such amount as may be sufficient to enforce the contract or to compensate the State because of the loss sustained by a failure to keep this contract.

SEC. 339. *Students moving from county may sell books; resale.* When a pupil in any public high school of one county removes to another county and enters a high school in that county and has regularly adopted high school text-books not used in the high schools of such other county, and wishes to dispose of them the county board of education in the county from which he removes, if requested to do so, shall purchase through any of its depositories or agencies, such books at a fair valuation thereof, depending on condition of the books, and shall provide for reselling them to other pupils at a profit not exceeding fifteen per cent.

## LETTER OF TRANSMITTAL

---

November 24, 1928.

HON. A. T. ALLEN,

*State Superintendent of Public Instruction,  
Raleigh, North Carolina.*

DEAR SIR:—The State Committee on High School Text-Books appointed by Governor McLean and yourself, herewith submits its report. We suggest the adoption of these books for a period of five years, except in the case of books in History and Science which we suggest be adopted for a period of two years.

Respectfully submitted,

RAY ARMSTRONG, *Chairman;*

KATE FINLEY, *Secretary;*

LEON R. MEADOWS,

CLYDE A. ERWIN,

J. WATSON MOORE,

*Committee.*

## C. SPELLING, WORD STUDY, DICTIONARIES

## 1. SPELLING

The committee is cognizant of the fact that the trend of opinion is away from the teaching of formal spelling in the high school. However, after careful consideration of the matter, the commission decided to list spelling books for the convenience of those high schools that may desire a text in spelling.

## II. Literature

## A. ENGLISH AND AMERICAN LITERATURE

The commission believes that at present there are many high schools in North Carolina that can use to advantage a collection of classics published in a series. Other schools may prefer to use separate classics. The commission makes the following recommendation:

## 1. LITERATURE SERIES

*Studies in Literature* (Century).  
*Prose and Poetry Series* (Singer).  
 Ross & Schweikert—*Adventures in Literature* (Harcourt).  
*Literature and Life* (Scott).

## 2. SEPARATE CLASSICS

Any standard edition of the classics.

## B. MODERN LITERATURE

The commission believes that there is an increasing demand for the teaching of modern literature in the high schools of the State. In order that material to meet this demand may be available to the high schools, the commission recommends:

## 1. THE SHORT STORY
